ABOUT ME

I am a dedicated Web Developer with a background in mechanical engineering (BSc) who transitioned into the world of web development. My passion lies in creating innovative and user-friendly web solutions. I excel in both front-end and back-end technologies, including not only **JavaScript**, **ReactJS**, **SASS**, **NodeJS**, **Python**, and **MongoDB**. As a collaborative team player, I thrive in group environments, while also demonstrating the ability to tackle challenges independently with a calm and resourceful approach.

WORK EXPERIENCE

Web Development Experience:

- Developed websites for diverse businesses, including photographers, dressmakers, barbers, curtain web shops, and dentists, enhancing their online presence and user experience.

Specialized Web Apps:

- Created an operational web app for a waste processing plant, optimizing their processes and efficiency.
- Engineered a data extractor web app that efficiently extracts and organizes data from PDF files into Excel format.
- Designed a site diary generator web app that automates the generation of site diary pages from Excel data, streamlining documentation.
- Developed a photo sender and saver web app, enabling seamless sharing and storage of images.

PORTFOLIO

Explore my portfolio at <https://www.webdevme.co.uk> for a showcase of my projects.

SKILLS

Web dev: *Git, ReactJS, JavaScript, HTML, CSS, SASS, NodeJS, MongoDB, Python, Django, AWS, Heroku, PythonAnywhere.*
Language: Proficient in English (C1) and native Hungarian
Attributes: Detail-oriented, proactive in self-education, adept at creative problem-solving.

EDUCATION

Web Development:	www.programozaskarrier.hu	2020 - 2021
Mechanical Engineering:	University of Szeged (BSc)	2000 - 2003
