## ABOUT ME

My name is Karoly, I'm a Web Developer. Originally, I'm a mechanical engineer with BSc degree, but I have changed my career to become a Web Developer. My main strengths on the front-end are **JavaScript, ReactJS, SASS**, also on the back-end **NodeJS, Python** and **MongoDB**. I'm a good team player and enjoy working as a member of a team, however, I can dive deep into a task on my own and not panicking if I need to find the solution on my own.

## WORK EXPERIENCE

### Web Development Experience:

- Photographer's business website
- Dressmaker's business website
- Barber's business website.
- Curtain web shop business website.
- Dentist's business website.

### Specialized Web Apps:

- Operational web app for waste processing plant.
- Data extractor web app that extracts the wanted data from PDF files and saves them in Excel file.
- Site diary generator web app that extracts data from Excel file and generates site diary pages and prints it off.
- Photo sender and saver web app.

## PORTFOLIO

<https://www.webdevme.co.uk>

## SKILLS

Web dev: ***Git, ReactJS, JavaScript, HTML, CSS, SASS, NodeJS, MongoDB, Python, Django, AWS, Heroku, PythonAnywhere.***

Language: English (C1), Hungarian (native).

Personality: Focused on task, self-educating, highly problem solving.
